Overview

Ms. Molloy has over 18 years of utility, retail energy supply and energy consulting industry experience in the industrial, commercial and residential sectors. She has held various senior management positions with South Jersey Industries, South Jersey Gas, Sempra Energy, and South Jersey Energy. She has extensive experience in Federal and State Government Contracting, Energy Aggregation solutions, commodity rate tariff, natural gas and electricity supply solutions, demand side management and performance contracting.

Prior to joining Concord, she served as Vice President at LPB Energy Management now ECOVA. In this position, she represented various federal, state, local government and private sector national clients as their Energy Advisory Consultant. Previous positions include: Director of Sales for Sempra Energy a retail energy supplier and General Manager of commercial and major accounts for South Jersey Gas, a regulated utility company.

She served on the State of Maine Task Force to Advance Energy Efficiency, Conservation and Independence for state facilities and currently serves on the Sustainability Jersey Energy Task Force and the Southern NJ Development Council Energy Task Force.
